Don Talley to Tenya Coleman

March 19 · [Black Mountain](#) ·

On Friday March 18th, 2016 Tenya Coleman presented a stellar jazz performance. Tenya Coleman was accompanied by accomplished jazz guitarist Daniel Keller. The concert took place at White Horse Black Mountain, an intimate performing arts venue in the heart of the mountains of Western North Carolina. Listeners were transported to another world, the world of Nancy Wilson, Sarah Vaughan, Dinah Washington, and Billie Holiday. Listeners were transported to the jazz clubs of New York City and Chicago. Live performances like this are impossible to adequately capture on video. Those in attendance were treated to a very special and unique musical experience where the connection between artist and audience was palpable.

Tenya performed as one of our opening "prelude" artist on our Summer Pops series last year. Although we had not worked with Ms. Coleman before, her performance was first rate and very polished. Her strong vocals and song selection made for a great opening for our concert. Tenya is a highly recommended performer!!!

- Bud Simmons, Director of Operations & Pop Program @
Charlotte Symphony Orchestra

Ms. Coleman displayed elegance & grace much beyond her years and her music selections were very much on point and an asset to our event. Her vocal accomplishments are evident from the first note. We cannot wait to host another event to have her back! A rising jazz star!
